

Klove is an important instrument in the lives of many in my community. It sends a possitive message out to it's listeners 24 hours a day. The aren't many radio stations that are geared towards the entire family. Parents can listen to KLove in the car and not have to worry about inappropriate lyrics. It is very apparent that KLove is coveted by my community by the fact that it is listener supported. KLove generates enough interest to take care of the financial needs to keep the radio waves pumping the encouraging music to my community everyday. Please do not let KLove be displaced by other progamming. Thanks!
